

Benchmark IIIa.1.5: Through training and on-site coaching and mentoring that is organized and maintained by the Safety Coordinator, provide field and classroom training to support local practice change in all 72 counties

Evidence of Completion: Summary reports of on-site training

Updated information from the revised Child Protective Services Safety Intervention Standards has been incorporated into all relevant training curricula. In 2012, the regional training partnerships will continue to offer Safety Foundation training for new staff and Safety Booster training for experienced staff.

Since the curricula was revised, child protective services workers attended safety training in the following locations and received updated information about impending danger threats and the danger threshold criteria:

July 2011	1 session - Madison (Staff attended from Columbia, Rock, Jefferson, Grant, Racine, Winnebago, Juneau, Dane, Milwaukee, and Walworth Counties) 1 session - Milwaukee (BMCW staff only)
August 2011	1 session – Wausau (Staff attended from Bayfield, Calumet, Langlade, Marinette, Marquette, Menominee, Oneida, Outagamie, Vilas, Waupaca, Winnebago, and Wood Counties) 2 sessions – Milwaukee (BMCW staff only)
September 2011	1 session - Milwaukee (BMCW staff only) 1 session - Waukesha (Staff attended from Columbia, Waukesha, Rock, Vilas, Racine, Kenosha, Manitowoc, and Milwaukee Counties)

Additionally, Department staff from the Child Welfare and Family Violence Programs Section provide specific case consultation to county agency staff about the child protective services process on a regular basis. This includes discussion and technical assistance related to safety assessment and safety planning using the revised “Child Protective Services Safety Intervention Standards.”
